

Admonter elastic adhesive

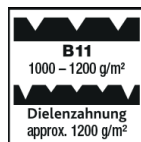

Suitable for using in private and public areas

Your advantage:

- suitable for all Admonter products
- no swelling and fading thanks to ingredients free of solvent and water
- perfect for laying Admonter Wooden Floors on based temperature-underfloor heating systems
- reduced formation of joints during heating period because of permanently elastic behaviour
- sound isolation increase
- reduced room sound
- free of solvent and isocyanat/"EC1 plus"-certificated, GEV EMICODE
- general building inspectorate approval, emission-proved general building
- no use of high effort and high costs with pre-working on difficult undergrounds. Direct gluing on almost all ground-levels, solid and free of fat and dust undergrounds without additional ground coat possible.
- high laying comfort - guter Rippenstand
- long laying time
- gluing rests can be easily removed from parquet surface
- ready for use, that means no need of stiring or measuring
- reach: approx. 1kg/m² (16kg / package)

For detailed processing instructions, see label on the container

Admonter flooring is a 100 % natural product. A picture never replaces the reality. For this reason we recommend a visit to your nearest Admonter flooring dealer. He will be pleased to show you samples. Errors and changes possible.
