

ADVANTAGES OF THE NATURAL OILED **EASY-CARE** FINISH AT A GLANCE

- Natural oiled EASY-CARE finishes will be delivered **completely finalised, ready for living**, and therefore will be **highly resistant** to dirt or any kind of contamination.
- Thanks to further development in the manufacturing process, the EASY-CARE natural oiled finish reaches a **higher level of saturation**. The elegant smoothness and feel of this **velvety soft surface** ensures even stronger sensory perception.
- The **diffusive and antibacterial surface finish** not only positively affects the wellbeing in the living area, but also reduces the multiplication and spread of bacteria and viruses.
- The EASY-CARE natural oiled finish assures **high process reliability** and **colour consistency**. Further, it guarantees a **high mechanical load capacity** which is regularly tested in the factory.
- The EASY-CARE natural oiled finish offers both **improved scratch resistance** and high chemical & mechanical resistance. Consequently, this surface finish ensures the best conditions for use in **commercial applications**.
- **A better dirt-repellent effect** ensures **low cleaning effort**.
- **NO initial treatment after installation is required**. Regular maintenance care **MUST** be carried out according to the usage of the floor. For this purpose, spray the maintenance oil sparingly and polish out residue-free (no streaks) with a white pad. (Please carefully read the maintenance & installation instructions https://admonter.com/wp-content/uploads/Admonter-Verlege-und-Pflegeanweisung-FLOORs_englisch.pdf)
- The appropriate **cleaning & maintenance detergents** are offered in 1 liter and in 2.5 liter containers. **Repair and supplementary oils** are also available. (please see current price list)
- The natural oil EASY-CARE consists of biodegradable resources. The oils used are natural oils according to the Austrian standards **ÖNORM C 2380:2008, point 4**.
